

Beef Kofta ? Onion Bhajis

Well some things are just meant to go together, but I did used to get told off as a kid for playing with my food. We're both in our 50s now so nobody can tell us off!

So Beef Kofta are cool. Onion Bhajis are cool. **Why not combine them?**

We then encased them in Onion Bhaji ? Recipe here

Served with a curry these silly little creations were superb! Probably a meal in their own right to be fair....
