## **Falafel**

### **Ingredients:-**

200g Rosecoco Beans

1 Onion, roughly chopped

1 Leek top from the white upwards, finely chopped

Parsley

3 Cloves of Garlic

1 ½ tbsp Gram Flour

Salt & Pepper to taste

2 tsp Cumin

1 tsp Ground Coriander

¼ tsp Cayenne Pepper

A pinch of ground Cardamom

A pinch of Turmeric

**Method:-**

(1) Soak the beans for 5 hours.

(2) Drain, add fresh salted water and simmer for 15 minutes.

(3) Drain again and add to an oven tray with Oil and a sprinkling of Salt.

(4) Roast at 180c until they pop.

(5) Set aside to cool.

(6) Mix all the other ingredient in a bowl.

(7) Once the Beans have cooled add everything to a blender and wuzz. You're looking for a smoothish consistency with a few larger bits of beans still visible.

(8) Cover and place in the fridge for 2 hours to harden up.

(9) Form into small balls and deep fry until they are golden brown.

(10) Drain on kitchen paper.

**We added the remaining Fennel to chopped Kale with a little minced Garlic and flash fried in a Wok to make a base for the meal. As an additional side we made a salad with Red Cabbage, Fennel stems, Onion and sliced Tomato ? Which we drizzled with the Vinaigrette.**
